

## International Graduate Program – Trainee (f/m) IT Solutions for Information Management

### Job description

Our International Graduate Program is designed to strengthen your core competencies in preparation for a management career within Infineon's Information Technology. Joining the IGP will get you the full insight into Infineon: over the course of 18 months you will have at least three different assignments – one of them abroad. You will meet the global IGP community in global, regional and virtual conferences. You will get feedback after each assignment, a mentor who gives career advice and a permanent contract from the start. If you want to find out more about the program, please click on the banner to the right.

As a management trainee within our Information Technology (IT) department you will explore a fantastic journey within our organization. You will collaborate with your colleagues from IT, the business and external partners. You will learn how globally organized teams interact and actively contribute to design, build and run state-of-the-art IT solutions in an agile environment.

In particular you will get familiar with the most recent methodologies to manage IT solutions and IT services within a global organization. Therefore, you will be part of the digital transformation in the areas of Research & Development and Legal & Patents.

Your program consists of the following elements:

- At your first station, you will be in the IT department learning about **technical documentation solutions** and **patent management solutions**.
- Then you will move on to **Research & Development**, where you **interact with R&D experts to design the solutions to manage Technical Documentation** for Infineon Products.
- To complement the above you will **work with the Infineon Legal and Patent Management department** to understand how patents are managed and maintained.
- Finally to complete your journey, you will have an assignment abroad **in Melaka, Malaysia** within the **IT Global Operations Centre**, before you start your target position.

In general, you have the opportunity to:

- Reflect on your experiences with your **dedicated mentor** on a regular basis.
- **Develop your intercultural competencies** and deepen your knowledge of our international business. A **stay abroad at our subsidiary in Melaka, Malaysia** is part of the program.

### Profile

You make the impossible possible. You don't wait for the silver platter. You love change (which is guaranteed in the semiconductor industry). You are pragmatic and analytic (we need both at Infineon). Standing still is not your thing and you find inspiration in working on the big picture with your colleagues.

Plus, you fulfill the following hard fact based criteria:

### At a glance

Location:	<b>Munich</b>
Job ID:	<b>27316</b>
Start:	<b>Oct 01, 2018</b>
Entry level:	<b>Graduate Trainee Program</b>

### Contact

**Christian Miller**  
Talent Attraction Manager

- You have a **degree in Business Informatics, Computer Science** or comparable - a specialization in **Information Management** would be a plus.
- You are interested in the area of **document modelling, automated document assembly** and **respective text analytics methodologies**.
- You have demonstrated your **leadership skills**, for example at university, during internships or during other extracurricular activities.
- You are familiar with **programming** and can use **standard back-office software** like **Excel, Word and PowerPoint**.
- You have gained **international experience abroad**.
- And of course you are **fluent in English - German** would be a plus.

And you fully agree to these statements:

- You are an **independent self-motivated individual**.
- You are able to **quickly get to the heart of things** and to **paint the big picture**.
- When you think about moving **to another country for at least three months**, you want to go immediately.
- **You like to work in teams that are very diverse and where everyone speaks English**.
- **You can't wait to present your concept in front of your team and management** (and doing so in English is fine too).
- Your friends would describe you as "technology-savvy".
