

# Internship in Oman

Internship at the German University of Technology in Oman

The German University of Technology in Oman (GUtech) was founded in 2007 in Muscat, the capital of the Sultanate, in cooperation with RWTH Aachen University.

For the upcoming **winter semester 2018/2019** (start of the semester is September 23<sup>rd</sup> 2018; the end of the exam phase is February 28<sup>th</sup> 2019) GUtech is once again looking for enthusiastic interns who are looking forward to assuming their teaching activities for **engineering and economic courses** in the intercultural environment of a young university. This concerns students in the following fields of study:

- **Computer Science**
- **Chemistry, Physics, Mathematics**
- **Mechanical Engineering, Environmental Engineering, Chemical and Process Engineering**
- **Industrial Engineering and Business Administration**
- **Educational Science students from the fields of study mentioned above**

## Info Event

On May 16<sup>th</sup> 2018 at 10.00 o'clock  
Address: Metzgerstraße 10, Room: Turm 1

### Internship Periods of the Departments

**Applied Geoscience**  
(02.09.2018-28.02.2019)

**Computer Science**  
(01.09.2018-28.02.2019)

**Engineering**  
(01.09.2018-28.02.2019)

**Logistics, Tourism and Service Management**  
(01.09.2018-28.02.2019)

**Mathematics and Science**  
(01.09.2018-28.02.2019)

**Urban Planning and Architecture**  
(15.09.2018-15.02.2019)

*(The internship periods are a rough time frame, the exact dates might vary.)*

### Overview

- Period of time depends on the specific department
- Paid internship, paid and organized accommodation
- Travel costs will be covered
- Internship can be used for a bachelor's or master's thesis
- Language practice, international experience, deepening of technological knowledge

### Your Tasks

- Giving consultation hours for technical issues of questions concerning the lectures
- Preparing and supporting lectures, exercises and exams
- Leading tutorials
- Supervising workshops

### Your Profile

- **Junior Intern:** bachelor's degree or at least four semesters of consecutive studies
- **Senior Intern:** graduate with a master's degree
- Fields of study: Computer Science, Business Administration, Chemistry, Physics, Mathematics or Engineering or
- Educational science students from these fields of study
- Experience with mentoring of tutorials
- Good English skills
- Restraint concerning cultural differences
- Patience, good manners and ability to work in a team
